THEODORE R. MCKELDIN

Mayor of Baltimore

DEAR MR. MAYOR:

We are submitting to you herewith the *One Hundred and Twenty-seventh Report of the Board of School Commissioners of Baltimore City for the biennium beginning July 1, 1964, and ending June 30, 1966.*

Essential facts concerning the operation of the Baltimore City Public Schools are presented in 112 tables, some of which report comparative statistics showing trends.

Respectfully submitted,

ELI FRANK, JR., *President,*
Board of School Commissioners

June 30, 1966

Digitized by the Internet Archive

Lyrasis Members and Sloan Foundation

To the Board of School Commissioners

Ladies and Gentlemen:

We are submitting herewith *The One Hundred and Twenty-seventh Report* on the operation of the public school system of the City of Baltimore. This report covers the biennium beginning July 1, 1964, and ending June 30, 1966.

Included in this report are statistics covering pupils, staff, finances, school organization and buildings, curriculum, Baltimore Junior College, and the Adult Education Program.

Pupil Statistics. Forty-nine tables include comparative enrollment and attendance for two years; net roll for 17 years; 29-year trend in net roll; public and nonpublic net roll by grades; number of school days by semester for 19 years; general summary including enrollment, net roll, attendance, teachers, principals, number of days in session; class size for 1964-65; 15-year trend in class size; special education class size; history of part timeness for 30-year study; age in grades; withdrawals; elementary, junior, and senior high pupil migration over city lines; test results; follow-up of graduates; classification of permanent jobs by occupational groups; caseload of school social workers, psychologists, and psychiatrists; library books for pupils; student attendance; number of pupils involved in radio and television programs.

Staff Statistics. Sixteen tables give basic information on trends and patterns of staffing schools; the number of personnel by classification; 10-year trend of educational and classified personnel; the number of educational and classified personnel (per 1,000 staffing pupil units); classroom teachers by classification (elected, nonelected, provisional); 14-year report of school social workers, psychologists, psychometrists; counselors and librarians; accessions and withdrawals; salary schedule; trend in teachers salary schedule—minima and maxima; trend in basic salary schedule; enrollment in inservice professional development activities.

Financial Statistics. The nineteen tables reporting financial data include the budget (general, revolving, matching, and loan funds for years 1964, 1965, and 1966); contributions of state, city, and other sources to school budget general funds, 1950-1966; percent of school budget general funds derived from

the state, city, and other sources, sources of income other than municipal taxation; cost of operating Baltimore City Public Schools for two years; current expenditures for Baltimore City public day schools; current operating expenditures; expenditures by other Baltimore City departments for public education; expenditures for adult education; current expenditures per weighted pupil units for selected great cities; 12-year trend in current expenditures, average daily attendance; trend in property tax rate; trends in school bonded indebtedness; median salaries and size of building level staff; valuation of Baltimore City public school properties; postwar school loan authorization for new school buildings; capital outlay 1945-1966.

School Organizations and Buildings. Six tables deal with school loan voting 1947-1964; postwar school building program projects; buildings being constructed from school loans through June 30, 1966; buildings in planning stage June 30, 1966; sites for future buildings 1951-1966; original construction dates (by decades) of schools in operation as of June 30, 1966.

Curriculum Statistics. Seven tables report enrollment and attendance in kindergarten and special education classes; accelerated, enriched, special college preparatory, and "A" Course classes; number and percent enrolled in certain senior high school subjects; achievement by subjects as of June 1965 and June 1966; achievement by subjects—senior high schools 1965-1966.

Baltimore Junior College. Twelve tables report two year comparative statistics; student membership and faculty 1965 and 1966; enrollment by curricula; faculty by classification; budget (general, revolving, and loan funds); contributions of state, city, and other sources; percent of budget derived from state, city, and student tuition; sources of income other than municipal taxation received by city comptroller; cost of operating for two years ending June 30, 1966; expenditures by other city departments for the Baltimore Junior College; valuation of Baltimore Junior College property.

Adult Program. Three tables report educational programs for the biennial and senior high school diploma.

Sincerely,

LAURENCE G. PAQUIN,
Superintendent

June 30, 1966

¹Table does not include pupils in Home and Hospital Schools, Veterans' programs, and College.

²Includes Resource, Opportunity, Special Center, Trainable, Day Camp (all levels), and Physically Handicapped classes. In tables published prior to 1958, included Shop Center pupils now tabulated under "Spec. Educ. (Jr. High)." Totals prior to 1957 include School No. 353 Child Study Center pupils taught by city teachers; now classified as Hospital pupils and not included in this table.

³Includes Physically Handicapped, Special Curriculum, and (prior to 1958) Shop Center and Occupational pupils, and in 1960 and thereafter, Trainable.

⁴Does not include Vocational-Technical High pupils.

⁵Does not include General Vocational pupils.

⁶Includes Post-Ninth Special Curriculum only.

⁷Vocational includes General Vocational and Vocational-Technical High pupils only.

⁸Early School Admissions.

¹Total Current Expenditures Per Weighted Pupil Units:

a. Total Current Expenditures

According to the United States Office of Education's *Financial Accounting for Local and State Systems*. Major account classifications from 100 to 1000 were included in Current Expenditures. Included in 900—Food Services Account and the 1000—Student Body Activities Account, were only those expenditures not reimbursed (i.e., only the school district's out of pocket expenditures).

b. Weighted Pupil Units

Weighted Pupils = $\frac{1}{2}$ (K ADA) + 1.0 (ADA grades 1-6) + 1.3 (ADA grades 7-12)

Example—Baltimore City

1964-65 Statistics: K ADA=13,858, Grades 1-6 ADA=91,076, Grades 7-12 ADA=61,986

Computation: $\frac{1}{2}$ (13,858) + 1.0 (91,076) + 1.3 (61,986) = 178,586

Source: Bureau of Research

¹Total Current Capital Outlay and Debt Service Payments Per Weighted Pupil Units:

a. Total Capital Outlay and Current Debt Service Payments

According to the United States Office of Education's *Financial Accounting for Local and State Systems*. Includes the following account classifications: No. 1200—Current Capital Outlay Payments (excluding payments from bonds and anticipation notes); No. 1300—Current Debt Service Payments.

b. Weighted Pupil Units

Weighted Pupils = $\frac{1}{2}$ (K ADA) + 1.0 (ADA grades 1-6) + 1.3 (ADA grades 7-12)

Example—Baltimore City

1964-65 Statistics: K ADA = 13,858, Grades 1-6 ADA = 91,076, Grades 7-12 ADA = 61,986

Computation: $\frac{1}{2}$ (13,858) + 1.0 (91,076) + 1.3 (61,986) = 178,586.

Definition: A "school in operation" is defined as a structure or group of structures occupying a single site and being currently used for the instruction of pupils. Annexes are included only in cases where their sites are not contiguous to main building sites. Portables are included only where they constitute the entire school and are counted as one "school" regardless of the layout. Structures occupying continuous or contiguous sites are counted as separate schools if each has a principal or other administrative officer.

NOTE: However, organizations with the same or different administrative officers occupying one building are counted only once (e.g., 106-162).
 List includes buildings in use that were acquired by the City (e.g., No. 300 acquired in 1915) but for which original construction dates were not available. These are included under a separate category, "Renovated Buildings." Rented facilities and hospital schools are excluded, but Junior College is included as well as Manpower Defense Training Act center.
 This listing should not be used to determine how many new buildings have been opened, as only the oldest construction date is given for a "school in operation." For new buildings, see Table 87.
